

ALL-BOTTLE™ SERIES  
Featuring — **INFINITY™**  
LIQUOR CONTROL SYSTEMS

FROM **BERG  
COMPANY**

# BERG'S ALL-BOTTLE™ SYST

... *for accountability and*

Liquor control doesn't have to be complicated — or expensive. Berg's patented ALL-BOTTLE™ system keeps both sides of the bar happy. Your customers see their brand being poured. And get a consistent drink — each and every time. You get total control and accountability for every drink poured — from every bottle — wells, calls, premiums, cordials.

With the Berg ALL-BOTTLE™ system, you determine the precise portions of liquor to be dispensed per drink — per brand. And, know that each portion poured is accounted for.

***Accurate pouring,  
instant recording,  
pours like  
conventional spouts.***

Berg's ALL-BOTTLE™ system uses unique price-coded pourers, that are easily inserted into each bottle. Simple, tamper-evident seals assure that each ounce will be accounted for. The pourers cannot dispense liquor unless they are used in combination with the special activator ring. The bartender simply brings the selected bottle up through the ring — with either hand — and pours the drink with a conventional pouring motion. It's just that fast. The drink is dispensed and recorded — immediately. It's that easy!

And with Berg's ALL-BOTTLE™ system there are no complicated hookups — no bottle pressure — no pumps — no liquor tubing to run. The station control box/activator ring can be mounted almost anywhere that liquor is served — from small bars and hospitality bars to multiple-station bars in large operations.

Best of all, it's affordable. In most cases, the Berg ALL-BOTTLE™ system can pay for itself in six to twelve months. Find out what this system can do for your bottom line.

## **ALL-BOTTLE™ FEATURES:**

- Allows management to control portions, price and policy for each bar station
- Accounts for every drink poured — from every bottle
- Easy to install and use
- Pours like conventional open bottle dispensing
- Dispenses precise pre-determined portions — up to 30 oz. per serving
- Eliminates over-pouring, reducing spillage and other losses
- Available in a variety of models and system options that allow interfacing to Personal Computers — Berg Laser liquor systems — and POS, for total cash control advantages.

Unique pourers and tamper-evident seals easily install on each bottle — for complete control and pouring accountability.

# EM

control of every bottle at your bar.

## BERG's INFINITY™ ALL-BOTTLE™ SYSTEM

. . . Compact, full-featured liquor control with PC interface \*

**Featuring:**

### **Complete management control**

- Adjustable LED indicator intensity — permits LED's to be set to best suit bar lighting.
- Battery back-up for memory retention in case of power failure.

\* Interfaces with IBM PC, XT, AT, or true compatible using DOS version 2.0 or greater. (IBM is a registered trademark of International Business Machines Corporation).

# **BERG'S** **INFINITY™ ALL-BOTTLE™ SYSTEM**

## **SPECIFICATIONS**

### **SYSTEM**

Number of brands: Infinite  
Programmable price levels: Three (3)  
Number of price codes: Seven (7)  
Programmable portion sizes: Infinitely variable, 0-30 ounces  
Operator portion selections: Up to 63  
Portion reset: Selectable - automatic/manual  
Security: Station - Key lock-out  
Bottles - Two (2) levels (pourers/seals)  
Power requirements: 120 VAC, 50-60 Hz.  
240 VAC, 50-60 Hz.  
Memory retention: Lithium battery back-up

### **STATION UNIT W/ACTIVATOR RING**

I-Box dimensions: 5"W x 4"D x 2.5"H  
Mounting - I-Box: Slide palate w/screws  
Enclosure: Stainless steel  
Unit weight: 2¼ lbs.  
Function controls: Portions (S,R,L)  
Price levels (A,B,C) - Key lock-out  
Function indicators: LED's for portion size, price level,  
(flashing for complimentary)  
Indicator intensity: Adjustable setting

### **ELECTRONIC CONTROL UNIT (ECU)**

**(power supply and interface box)**

ECU dimensions: 10.5"W x 4.5"D x 6.75"H  
Mounting: Wall or under cabinet w/screws  
Parallel information port: Standard  
Unit weight: 5 lbs.

Optional drip-proof enclosure: Size - 11.75"W x 8"D x 8.25"H  
Construction - Stainless steel  
Unit weight: 9-1/8 lbs. (w/ECU)

Part No. P/N 5202052  
Form No. AB203-8904  
Printed in U.S.A.
