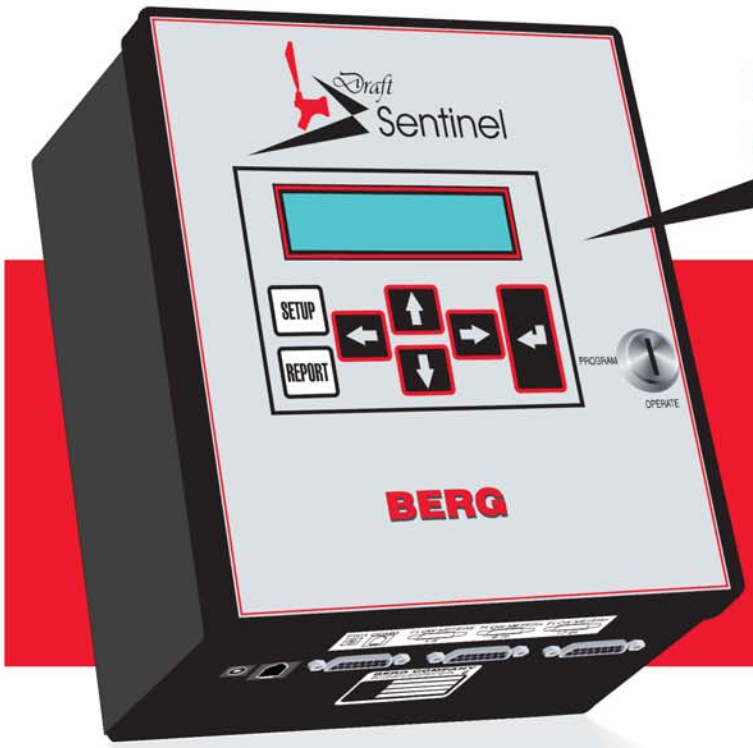
BERG

Draft Sentinel™



MONITOR UP TO 24 draft beer lines — with ONE CONSOLE!

Monitor up to 24 draft beer, wine, or soda lines with one ***Draft Sentinel*** console. The new microprocessor / flowmeter based system by Berg, allows tracking cumulative sales by brand, by volume.

When combined with your existing (Windows™ based) PC and Berg's **Infinity**™ software or ***"Beverage Manager"*** software, detailed manager reports can be generated in your office, ***allowing for receipt of detailed retail sales information as well as volume dispensed by each brand.*** Now, it's easy to compare actual dollar / volume dispensed, to your inventory and cash register receipts.

Features:

- Monitor up to 24 Berg Flow Meters per console.
- Key-less display of volume dispensed by brand (X Report).
- Connects to the Infinity™ System giving you "single point" access to Calibration, Scheduling and Reporting with Infinity™ Software.
- Battery back up for memory.
- Water resistant enclosure.
- Utilizes industry accepted Berg Flow Meters.
- Installation can be easily upgraded to Berg's **Tap2™ Draft Beer System**.
- Standard reports include:
  - Volume dispensed by brand (up to 24/console)
  - "Z" Number Report
  - Power removed (interruption) since last "Z".
- Optional interface available for use with Berg's exclusive software ***"Beverage Manager"***. Allows remote monitoring and printing of both volume and sales figures (retail value) by brand — from user's (Windows based) PC.
